## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of Species II is acknowledged.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21-22 and 24-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Metz (US 3,998,377).

Metz discloses that 48 applies a force and adjust 24 of a plurality of substrates (42, 16, 18) to define a collective surface shape (a cured shape shown in Fig. 2); a top surface of 10 is a reference surface; rotating and translating 24 about down axis of 48 perpendicular and along a plane where 20 and 24 meet.

### *Claim Rejections - 35 USC § 103*

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 23 and 43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Metz (US 3,998,377) in view of Kira et al (US 6,122,823).

Art Unit: 3729

Metz discloses 10 as being a device and substrates are adjusted to a desired shapes as shown in Fig. 2 to electrically couple with a corresponding reference surface of 10.

Metz fails to disclose 10 is under test.

Kira discloses in Fig. 3D wherein devices 12-1 to 12-4 are under test.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Metz by testing devices, as taught by Kira, for the purpose of determining the device is functional or not before being sold to public.

#### ***Response to Arguments***

6. Applicant's arguments with respect to claims 21-27 and 43 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Interviews After Final***

7. Applicant note that an interview after a final rejection must be submitted briefly in writing the intended purpose and content of the interview (the agenda of the interview must be in writing). Upon review of the agenda, the Examiner may grant the interview if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations will be denied. See MPEP 714.13 and 713.09.

#### ***Conclusion***

8. Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

Art Unit: 3729

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (703) 308-4784. The examiner can normally be reached on 5:30 AM to 1:30 PM, Monday through Thursday.
